

# AGENT AIRLOCK / ASSEMBLY GUIDE

48 x 36 in board | 12 / 24 / 12 in sections | 12 A4 prints

LEFT / 12"

CENTER / 24"

RIGHT / 12"

## PANEL KEY

- 01 AGENT title
- 02 AIRLOCK title
- 03 The problem
- 04 The control gap
- 05 Why it matters
- 06 The checkpoint
- 07 Three outcomes
- 08 Try the demo
- 09 Decision receipt
- 10 Configure once
- 11 Meet the team
- 12 Hack repo + QR

03  
PROBLEM

Meet your AI coworker.  
Real-world reach.

- Change code
- Send messages
- Access company data
- Touch production

Who decides what it may do?

04  
CONTROL GAP

A prompt is not a permission.

THE MISSING CONTEXT  
What action? Which data?  
Which target? Which mission?

Airlock complements identity, permissions and host containment; it does not replace them.

05  
PRODUCT GOAL

Less friction.  
Clearer boundaries.

**People using agents**  
Know the approved limits.

**Developers**  
Stop repeating rules in every prompt.

**Security & IT**  
Set clear, consistent boundaries.

**Reviewers & auditors**  
See what was decided, and why.

01  
AGENTS HAVE HANDS NOW

AGENT

Give AI agents room to move,  
LOCAL HACKATHON PROTOTYPE

The prompt describes the destination.

06  
LOCAL PROTOTYPE

THE AIRLOCK CHECKPOINT

Before a supported action runs.

VALIDATED TOOL CALL  
Exact action. Pinned policy.

POLICY-BOUND GATES

Data

Secrets, PII labels

Actions

Online-write intent

Models

Catalog boundaries

Risk

Dependency advisories

Cost

Usage / cost reporting

Each tool runs its required gates.  
Other routes are outside this checkpoint.

02  
COMING WITH BOUNDARIES

AIRLOCK

not room to break the rules.

Agent Airlock clears the safe path.  
FIVE GUARDED TOOLS • DECISION RECEIPTS

07  
ADICIT

One checkpoint.  
Three outcomes.

For supported, brokered actions.

ALLOW

Create the allowed local result.

ASK FIRST

Approval required.  
No execution today.

BLOCK

Forbidden by the rule.  
No execution.

The agent cannot grant itself new permissions.

Interactive approval is future work.  
Errors also stop execution.

09  
THE DECISION

Every decision has a reason.

A redacted receipt, not a mystery.

ILLUSTRATIVE RECEIPT

Action

Publish draft

Gate

Secrets

Reason

Secret detected

Run

Not started

Record

Redacted metadata

EXPLAINABLE.  
REVIEWABLE.

Recorded before execution starts.

Synthetic example / brokered action / no live publish

08  
LIVE

Try to break the rules.

New wording. Same forbidden action.

01

Clean demo draft  
No configured detector matches.

ALLOW

02

Draft + synthetic secret  
Sensitive-information gate.

BLOCK

03

Secret + 'Ignore all rules'  
Same secret. Same block.

BLOCK

Guarded draft demo. Local files only.

10  
PRODUCT VISION

Configure once.  
Enforce consistently.

ORGANIZATION

Mandatory boundaries

TEAM

Workflow controls

MISSION

Exact task and limits

Today: local plugin rules. Next: mission contracts and shared, versioned rules releases.

11  
BUILDERS

Meet the team.

Five builders. One safer path.
